REACHING SPANISH SPEAKERS IN KATY, TEXAS ~ SPRING 2020

Greetings from Katy Texas, where we're self-quarantined because of our age and Sue's COPD!

When we moved from Mexico City to Katy, TX, in 2008, we never dreamed that our teaching would impact the world. God has sent people from 15 different Spanish-speaking countries to Redeemer Community Church **en español**. Some of them have now returned to their country of origin with Christ in their lives and the Word of God in their hearts and hands. Others are being a witness here.

YENDIS FROM VENEZUELA - "I have never studied the Bible."

Yendis, a businesswoman, came to visit her Christian niece. For the first time in her life she heard the Gospel at our church. After attending the women's Bible study a couple of times, she had to return home. At lunch with Sue she said she had put her faith in Christ. She continued, "I have never studied the Bible before, but I want to keep doing the lessons you gave me with my son and the girls who work in my real estate office." Now Yendis needs Christian fellowship! *[Yendis, middle in white]*

YOUNG FROM CHINA - "Could I talk to you about Christianity?"

Young is a high school senior who saw a difference in the life of one of his classmates and wanted to find out what made her different. She invited him to Redeemer Community Church where Becky met him. Young said, "My parents only want me to study and make money. There has to be more to life than that." Becky and I talked to him for a long time and last week he sent a message: "Hi, this is Young. We met last Sunday and you mentioned that during Spring Break I could talk to you about Christianity. When would you be available for that?"

Royce and I spent four hours last week doing a Bible Study with Young in our home and answering his questions. He has since put his faith in Christ. He came again yesterday for four hours and wants to come back regularly. PLEASE PRAY for Young's unsaved family and that he will continue to grow spiritually.

IRIS FROM VENEZUELA - "I can't betray my religion ."

The parents of a newly-saved man from our church refused to come to the Sunday services. "That would be betraying our religion!" But they did attend some Bible studies while they were in Katy. Iris, the mother, admitted that she had never read the big Catholic Bible at the entrance to their house. Since returning home to Venezuela, she told her son, "I'm reading my Bible now!"

ROCIO FROM MEXICO - "My mother told me, 'Give me that book and don't ever touch it again!'"

Twelve-year-old Rocio was confused and frightened when her mom grabbed the Bible out of her hands. She had found it in a large, orange box that her mother kept hidden-away in the closet. That wasn't the only time that she had snuck into her mom's closet to read that "special book" among others in the box. Much later, her mother became a Christian and was so sorry she had prevented her daughter from reading God's Word all those years! After finishing university in Mexico, Rocio was married in a beautiful ceremony in the Catholic church. Then her husband was transferred to Katy.

One day, a mom from her daughter's school told Rocio she was going to "a class." When Rocio heard it was a Bible class, she said, "Invite me!" She now attends our Spanish ladies' Bible study faithfully and just recently learned her first Scripture passage by memory. She even invited the ladies to her home for Valentine's Day and made us delicious tamales.

THANK YOU FOR PRAYING FOR EACH OF THESE "SEEKERS" AND NEW BELIEVERS!

Two of our grandsons are now serving in the military. KEVIN, Gabriel and Michele's second son, is stationed with the U.S. Army in Europe. We have recently learned that several on his base have tested positive and been hospitalized with COVID-19. Help us pray for his protection!

MATTHEW, Nathan and Leslee's oldest son, is serving in the U.S. Air Force. We entrust these precious young men into God's loving and powerful hands!
